

RHCS summer meeting 2022

Instructions for presentations

We are so looking forward to see you in August at Hooks herrgård outside Jönköping at the RHCS summer meeting, and take part of your presentation. In the program you can see where we have scheduled your presentation. The program for the RHCS summer meeting 2022 and these instructions have been designed to support the inherited spirit of these meetings – *long discussions interrupted by short presentations* – that were adapted to help us develop the understanding of resilient health care. We will be strict with the time-keeping.

Instructions for oral presentations

The presentations are expected to take no longer than 12 minutes, to allow for ample time for Q&A and discussion in the session where it is scheduled. If your presentation is supported with a power-point presentation we want you to upload it in the computer in the meeting room at the latest in the break before the session. We will during the meeting ask you for permission to upload the presentation at the RHCS web-site.

Instructions for speed-poster presentation.

The poster shall be in A0-size, which is 84 cm (width) x 119 cm (height), anyways not larger than that. You have to print the poster and bring it to the meeting. You will be allowed to give a short oral presentation that highlights the most important things in the poster, for no more than two minutes, and with one power-point slide, in one of the two the speed-poster sessions. We need this slide to be e-mailed to axel.ros@rijl.se at the latest on the 10th August. We would appreciate if you give us the permission to publish your poster on the RHCS web-site. You give that permission by e-mailing the poster to axel.ros@rijl.se.

Any questions? Please contact me.
